Results for (if different than Bill to Account):	
Name	
Address	
Phone	email

Sample Information	
Date	
Grower	
Location (nearest town)	

For Lab Use	Sample ID	Sample Depth (in / cm)	Current Crop	Previous Crop Grown (If known)	Zip code or county sample was taken	Test Desired

- Remember to:
1. Place roots in same plastic (freezer bag type) bag as the soil. A normal sample size is about 1-3 lbs.
 2. Please label plastic bag with proper identification of sample (double bagging is preferred)
 3. Place sample(s) in cooler while collecting and return to office to either hold or ship.
 4. Send samples in a cardboard box and ship regular UPS, FED-EX, or US Mail.
 5. Please include this submittal form with APHIS required permit inside the box.
 6. Outside of box may be marked APHIS as well.
